Task	Comment	Points
Task 1a)	Correct.	2/2
Task 1b)	Missing.	0/6
Task 1c)	• You don't perform any cross-validation. • The task was to run experiments with all activation functions but you code randomly selects on. • The learning rate should have been 0.1 instead of 0.01. • Swish function is not implemented as a module. • You probably need to cast the labels to type torch.long. • Missing evaluation of your results.	1.5/6
Task 2)	Correct.	6/6
		9.5/20
